

INTERNATIONAL JET

AVIATION SERVICES

May 2018

Dear Lear Gulfstream G200 Captain:

International Jet Aviation Services is currently looking to hire several Gulfstream G200 type rated pilots for our operation. We fly both 91 and 135 missions and operate a wide variety of aircraft from, King Air's to Gulfstream 450's. Our company has been in business since 1979 with the primary base of operations at Centennial Airport (KAPA) in Denver, Colorado. Since the beginning we have had a strong Learjet fleet with an average of 8 - 10 Lear's in operation at any time.

The Gulfstream G200 program is operated with a dedicated three crew staffing for each aircraft. Crews are assigned to one aircraft and fly that aircraft primarily. In general the crews work 10 days on and 5 days off, with the flexibility of managing the days amongst the assigned pilots to insure one full crew is on at all times. Aircraft operations are primarily U.S. domestic with some Canada, Mexico, and Caribbean flights.

Pay and Benefits:

Salary \$130,000 or open based on experience

Paid vacation

Health and Dental insurance

Matching 401k plan (dollar for dollar up to 5% of salary)

Information on our company can be found at:

www.internationaljet.com

If you or someone you know with a Lear 60 type rating is interested in joining our team, please contact our chief pilot.

Mr. Keith Haines, Chief Pilot
